The Water Research Commission (WRC) is a dynamic hub for water and sanitation knowledge, innovation and intellectual capital, providing leadership and the support research, development and innovation of water and sanitation solutions. It engages stakeholders and partners involving water and sanitation challenges and opportunities, which are crucial to South-Africa's sustainable development and economic growth and is committed to promoting a better quality of life for all. The WRC is a schedule 3A public entity and adherence to required legislation is imperative to the organization's strategy and values.

Applications are invited from suitably qualified, experienced individuals for the Pretoria-based position of:

### **Business Systems Manager (Ref: BSM)**

The WRC's exciting and fast changing environment requires a professional that has the ability to drive business innovation and assist business to easily adapt to the increasingly complex ICT systems. The Business Systems Manager must be experienced with technical expertise coupled with an understanding of business and management principles. He/she will form part of Corporate Services Branch and will report to the **Chief Information Officer**.

A Diploma or Bachelor's Degree in Computer Science or equivalent is essential. 4-5 years relevant experience in ICT operations management and business system applications, a majority of which should have been at a senior level. In addition, experience in Systems and Business Analysis and SQL user and Sound Database administration skills.

The Business Systems Manager will be responsible for the development, integration, installation and operation of business systems at the WRC. This Manager will deploy information and communication technologies to improve business processes and enhance the organisation's value chain networks which the organisation uses. The Incumbent will be required to develop and manage the business information systems of the WRC and translate business requirements into designs and technical solutions. The Business Systems Manager will analyze, design and implement IT system improvement changes across different strategic areas and ensure that required controls are in place to mitigate potential risks to the ICT environment.

The appointment will be made in line with the WRC's employment equity plan. A detailed CV with three references, **quoting clearly the Reference as a subject matter** should be submitted to Human Resources, e-mail: [hr@wrc.org.za](mailto:hr@wrc.org.za) Closing date is **3 July 2018**. **If you are not contacted 3 August 2018 please consider your application as unsuccessful.**
