OR

Submit the PEFC (Programme for Endorsement of Forest) Certification	Attached	Not attached

Green printing technology and practices are important for the Water Research Commission. The purpose of requesting the certificate/s is to ascertain if the printing company is actively investing in green technology and making efforts to limit negative impacts on the environment as far as possible. FSC® (Forest Stewardship Council) and PEFC™(Programme of Forest Certification) are both independent international verifications that the products printed can be traced back from their point of origin to responsible, well-managed forestry, controlled and recycled resources. Printing plants also have to comply with strict environmental conditions to receive FSC certification. The printing requirements of the WRC, with a print run on average of 40 000 copies, consumes over 20 tons of paper. Using a print supplier with FSC certification ensures environmentally sound paper stocks and printing processes.

$$PS = 80 \left( 1 - \frac{Pt - Pmin}{Pmin} \right)$$

Pmin

Ps = Points scored for price of the bid under consideration.

Pt = Rand value of bid under consideration.

Pmin = Rand value of lowest acceptable bid

Bidder who obtains highest total points on PRICE and B-BBEE claimed points shall be awarded the contract.

- 1 This Standard Bidding Document (SBD) must form part of all bids<sup>1</sup> invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>2</sup> Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
