

STAKEHOLDER ENGAGEMENT: ANNOUNCEMENT OF WATER RESEARCH COMMISSION 2023-2028 STRATEGY & NEW THEMES

Date: 24 August 2023

Time: 9:00-11:00

Registration link: https://us02web.zoom.us/webinar/register/WN_iizXjZUMRoeg-eW85N8ymQ

Background

The WRC invites its stakeholders to a webinar to announce and share the Water Research Commission 2023-2028 Strategy and new Research, Development, and Innovation (RDI) themes. These new themes guide our research funding investments and focus areas.

The WRC is a government entity established to coordinate, guide and fund water research, development and innovation programmes, projects and activities aimed to address the South African water challenges and to provide the required credible scientific knowledge to influence policy and decision making relating to water and sanitation issues affecting the country.

Everyone is a stakeholder of the WRC, and we are delighted to extend this invitation to all SA citizens to participate in the announcement of the WRC 2023-28 strategy and priority themes and discover how you can contribute to the realisation of the strategy.

Aims

To raise awareness of the WRC Strategy 2023-2028, Research, Development, and Innovation (RDI) themes, and provide for the WRC's stakeholders to engage with the WRC team on the new strategy and themes.

Below is a series of online engagements WRC has planned to engage all its stakeholders on the New Strategy and RDI Themes:
