<p>Eligible Institutions</p>	<p>All Austrian research institutions are eligible to apply. Research institutions must be registered in the FWF's research institution portal. The proposed research must be carried out in Austria under the auspices of the Austrian lead research institution. Applications are submitted by the research institution where the project is to be carried out.</p>	
<p>Eligible Applicants</p>	<p>The principal investigator must be employed at the Austrian research institution applying for funding at the time the project is scheduled to begin. The principal investigator must have appropriate scientific qualifications as described in the general FWF Application Guidelines.</p>	
<p>Eligible Costs</p>	<p>Project-specific costs are eligible for funding. These include personnel and non-personnel costs that are needed to carry out the project and that are not included in the infrastructure provided by the research institution (for more information please see section 2.3 of the Guidelines). The FWF does not finance the infrastructure or basic equipment of research institutions.</p>	
	<p>In addition, funding may be requested for project-specific work at the associated research institution(s) where associated research partner(s) work. Associated research partners are researchers working on a project-specific basis at other Austrian research institutions (associated research institutions) and who are making a significant scientific/scholarly contribution to the project. The <i>Associated Research Partner</i> form must be completed for these researchers, if applicable. Funds are disbursed from the lead research institution to the associated research institution(s). Associated research institutions report directly to the FWF to account for funds used at their institution.</p>	
	<p>For information on applying for personnel costs for the principal investigator's own salary, please see section 2.3.1.1 of the Guidelines. Please note that exaggerated cost projections may be grounds for rejection, even if a proposal is otherwise excellent.</p> <p>Multiple funding is not permitted.</p>	

Funding Commitment	Total Amount for the Call (national contribution)	Maximum Amount Per Proposal
	500.000	
Other Funding Criteria		
Relevant documents	<p>In addition to the application submitted to the Call Secretariat, pre-proposals including FWF-specific administrative information must also be registered online with the FWF at https://elane.fwf.ac.at by November 13, 2023, 2:00 pm CET. Pre-proposals can be registered starting September 12, 2023, under the program category “PIK – International Programs draft proposal.”</p> <p>For the full proposal stage, applicants must choose the program category “PIN – International Programs”. Both steps are mandatory.</p> <p>Please note that applications are only valid once they have been approved for submission by the research institution on the submission portal in due time before the specified deadline.</p>	
Additional Info	<p>Principal Investigator Projects (P or PAT), International Programs (I, PIN), pre-proposals for International Projects (IK, PIK), Clinical Research (KLIF), and the Arts-Based Research Program (PEEK): A researcher can be named as principal investigator in a maximum of three ongoing/approved projects and applications at a time. For example, if two projects are already ongoing/approved in the abovenamed programs, a researcher can submit only one further application (including PIK). If a researcher is named as principal investigator in three ongoing/approved projects in one of the programs named above, they may participate in a further application to one of the programs named above (including PIK) no earlier than 12 months before the end of one of the ongoing projects.</p>

BELGIUM (Flanders)

	<p>Funding Organisation:</p>	<p>The Research Foundation – Flanders (FWO)</p>  <p>Opening new horizons</p>
<p>National Contact Point (NCP)</p>	<p>Name:</p>	<p>Email and Phone:</p>
	<p>Toon Monbaliu (general) Kristien Peeters (SBO)</p>	<p>+32 (0)2 550 15 70 +32 (0)2 550 15 95</p> <p>europe@fwo.be</p>
<p>Eligible Institutions</p>	<p>The FWO integrates two of its national/regional funding channels within this multilateral framework. The choice of funding channel depends on the <u>type of project</u> the researchers from Flanders wish to undertake.</p> <p>The scope and the eligibility of institutions and its researchers can be verified in the relevant chosen funding channel regulations, which can be consulted on the FWO website:</p> <ul style="list-style-type: none"> - FWO Research Projects (FO) - Strategic Basic Research (SBO) <p>Or by contacting the FWO contact points mentioned above.</p>	
<p>Eligible Applicants</p>	<p>See ‘Eligible Institutions’ above for the general eligibility criteria linked to participation in the ‘joint transnational call’ and ‘Early Career Researcher call’ (ECR).</p> <p>The FWO also participates in the Knowledge Hub instrument (KH), for which the applicant needs to integrate the required budget linked to this instrument as costs in the project budget (i.e. ‘joint transnational call’ and ‘Early Career Researcher call’ (ECR)).</p> <p>However, the FWO will only support applications for ‘expert group members’.</p> <p><u>Expert group member</u></p> <ul style="list-style-type: none"> ○ FWO applicants can appoint an expert group member for the knowledge hub, after consulting and agreeing with their consortium (important: each consortium can appoint only one expert group member to represent their project). <p>PIs cannot claim personnel costs at the FWO, which means this contribution should be in-kind as an equivalent of minimally 1,5 PM in total for three years. The applicant should enter the personnel costs into the project budget table as own costs.</p>	

	<p>FWO covers the travel costs of knowledge hub expert group members for attending 3 workshops. The applicant should enter the travel costs into the project budget table as a requested cost, and as such these costs are included in the project's general budget.</p>	
Eligible Costs	<ul style="list-style-type: none"> ○ The FWO foresees a budget of 700.000 EUR, which allows for the funding of at least two projects. ○ The respective funding channel regulations apply (see links to national rules above), and both are capped at max. 350.000 EUR per project/consortium (incl. overhead, for which the calculation method diverges per funding channel; see explanation below). ○ For the overhead calculation, the fundamental (FO) and strategic research projects (SBO) apply the same approach. A structural overhead rate should be applied on the project costs, with an overhead rate of 6% for 'FO' projects, and a 17% overhead rate for 'SBO' projects. Some practical examples: <ul style="list-style-type: none"> ➤ FO: the sum of all costs (personnel, consumables, travel, subcontracting, etc.) amounts to 200.000 EUR, then the overhead will amount to 12.000 EUR (6% of 200.000 EUR) and the total requested cost is 212.000 EUR. This total requested cost may never exceed the max. available amount of 350.000 EUR. ➤ SBO: the sum of all costs (personnel, consumables, travel, subcontracting, etc.) amounts to 200.000 EUR, then the overhead will amount to 34.000 EUR (17% of 200.000 EUR) and the total requested cost is 234.000 EUR. This total requested cost may never exceed the max. available amount of 350.000 EUR. 	
Funding Commitment	Total Amount for the Call	Maximum Amount Per Proposal
	700.000 EUR	350.000 EUR
Funded instruments	Joint transnational Call <input checked="" type="checkbox"/>	
	Early Career Researcher Modality <input checked="" type="checkbox"/>	
	Knowledge Hub Modality <input checked="" type="checkbox"/>	
Other Funding Criteria	<p>!! NEW !!</p> <ul style="list-style-type: none"> ○ Applicants for FWO funding must submit a mandatory administrative application via the FWO e-portal. For fundamental research projects (FO) select the application type: "Research projects – European programme fundamental research". For strategic basis research projects (SBO) select the application type: "Research projects – European programme strategic basic research". In case the consortium includes more than one partner requesting funding from FWO, a <u>single online form</u> should be submitted containing all relevant information from the different Flemish partners. 	

	<p>The deadline to submit this administrative application to the FWO is identical to the deadline of the joint transnational call (preproposal stage). To ensure the eligibility of the proposal, it is recommended to consult the FWO administration at least one week in advance.</p> <p><u>Failure to comply with these requirements can lead to ineligibility.</u></p> <ul style="list-style-type: none"> ○ Participation in this call does not interfere with the ‘regular/national’ project submission framework, and is consequently not taken into account for calculating the max. available number of new applications and running projects combined. However, researchers can only participate within 2 different international consortia in this call. ○ Projects aiming at the development of a spin-off company are not eligible in this context. ○ The project duration is limited to 36 months, which implies the funding has to be budgeted and spent accordingly. An automatic prolongation and using positive (financial) balances after the end date is not applicable in this framework. As such article 28 of the FWO Research Projects and article 14 of the Strategic Basic Research (SBO) regulations do not apply here. ○ The PI, for each of the participating institutions applying for FWO funds, must hold an appointment that fully covers the duration of the research project. ○ Linked to the above, when it comes to the FWO research project regulations (FO): article 10, §7 is not applicable in this call. I.e. supervisors (-spokespersons), or coordinators/consortium partners in this context, who are granted emeritus status during the calendar year of submission of the project application or during the duration of the project, are not eligible.
Relevant documents	A mandatory administrative application via the FWO e-portal is an essential part of the application process (see ‘Other Funding Criteria’).
Additional Info	It is strongly advised to approach the FWO contact points mentioned above, in order not to jeopardize any research projects/consortia.

Eligible Applicants			
Eligible Costs	All eligibility rules and criteria can be found in the PINT-MULTI regulations . Please note that personnel costs (Article III.6) have an annual average cap of 80,000 euros for this call. “Overhead” is not an eligible cost. If the project is selected for funding, these costs will be subject to a separate agreement between the institution of the beneficiary and the F.R.S.-FNRS. Eligible costs for attending knowledge hub activities are as follows: F.R.S.-FNRS only covers the travel costs (3.600 Euros) of knowledge hub expert group members for attending 3 workshops. The travel costs should be included in the travel cost category of project’s general budget as a requested cost. The travel cost should not be included in the “financial data” part in the knowledge hub expression of interest section in EPSS.

Other Funding Criteria	<p>3. State Aid</p> <p>EU Regulations on State aid and de minimis aid must be taken into account when requesting funding.</p> <p>If the State aid or de minimis aid regulations apply, the funding will not be granted to a Host Institution who has been subject to a funding withdrawal decision pursuant to a previous European Commission decision that deemed the aid illegal and incompatible with the common market, if that decision has not been complied with.</p> <p>The funding is not considered State aid for research and development, if the project has ties to the non-economic activities of the Research (or Host) Institution, if the research and development activities and the related costs, funding and revenue can be clearly separated, thus avoiding the cross subsidisation of economic activity.</p>	

The criteria defined in Clauses 17–22 of Communication from the European Commission – Framework for State aid for research and development and innovation (2014/C 198/01) forms the basis for determining whether the activities carried out are economic activities and whether the Host Institution is a company that is considered to be a State aid recipient when it receives funding.

If the institution applies for State aid or de minimis aid, it must fill in the **State aid form**. No tax arrears are allowed on the proposal submission date. I

If State aid or de minimis aid is given, the documents related to the funding must be kept for 10 years as of the date when the agreement was entered into.

State aid pursuant to the Block Exemption Regulation

If the funding is considered to be State aid, then it is given on the basis of Article 25 or 25c of the Commission Regulation (EU) No. 651/2014 that declares certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty (OJ L 187, 26.6.2014, pp. 1–78) (hereinafter the Block Exemption Regulation), and the provisions of the Commission Regulation and Section 34² of the Estonian Competition Act apply.

State aid is not given in cases specified under Articles 1(2) to (5) of the Block Exemption Regulation.

In case of State aid, the eligible costs of the project activities must comply with the requirements specified under Article 25(3) of the Block Exemption Regulation (except clause (c)), and the maximum aid intensity must comply with Articles 25(5) and (6). If applicable the State aid is given according to the rules specified in Article 25c – aid involved in co-funded research and development projects.

If the funding can be considered to be State aid, the application must include the information specified in Article 6(2) of the Block Exemption Regulation, and the application has to be submitted before the start of the activities.

If State aid is given, then the costs of the activities carried out before application submission will not be eligible for aid.

De minimis aid

If the funding is considered de minimis aid, then it is subject to Commission Regulation (EU) No. 1407/2013 on the application of Articles 107 and 108 of the Treaty on the Functioning of the European Union to de minimis aid (OJ L 352, 24.12.2013, pp. 1–8) (hereinafter the De Minimis Aid Regulation), and the provisions of the Regulation and Section 33 of the Estonian Competition Act apply.

De minimis aid is not given in cases specified under Article 1(1) of the De Minimis Aid Regulation.

In case of de minimis aid, the maximum aid intensity must comply with Article 3 of the De Minimis Aid Regulation.

De minimis aid given to the Host Institution together with de minimis aid applied for must not exceed 200,000 euros during the current financial year and the two previous financial years.

Article 5 of the De Minimis Aid Regulation applies to cumulating de minimis aid.

A single undertaking is an undertaking specified in Article 2(1) of the De Minimis Aid Regulation.

4. Grant Agreement

If a positive funding decision is made, the Funding Organisation enters into a grant agreement with the Host Institution. Information on the transnational project must be entered into ETIS once the agreement has been signed.

The Consortium Agreement should be signed six months after the grant agreement has been signed at the latest. If one year has elapsed and the CA has not been signed, the next instalment of funding will not be paid out.

	<p>5. Research Involving Human Subjects or Animal Testing If human research or animal testing are intended in the project, a positive resolution by the Human Research Ethics Committee or the Authorisation Committee for Animal Experiments must be submitted to the Funding Organisation by the start of the relevant activities.</p> <p>6. Nagoya Protocol By applying for funding by the Funding Organisation, the applicants commit to consider the relevance of the Nagoya protocol for their research, and to submit the Due Diligence Declaration, if applicable.</p>

<p>Eligible Applicants</p>	<p>For scientists based in the Kingdom of the Netherlands, the NWO eligibility criteria apply.</p> <p>Full, associate and assistant professors, lectors, senior researchers and other researchers with a comparable position* may submit an application (i.e. participate in a consortium and request NWO funding) as main applicant, if they have a tenured position (and therefore a paid position for an indefinite period) or a tenure track agreement at one of the following organisations:</p> <ul style="list-style-type: none"> • universities located in the Kingdom of the Netherlands; • university medical centres; • Institutes affiliated to the Royal Netherlands Academy of Arts and Sciences (KNAW) or NWO; • Universities of applied sciences as referred to in Article 1.8 of the Higher Education and Scientific Research Act (WHW); • the Netherlands Cancer Institute; • the Max Planck Institute for Psycholinguistics in Nijmegen; • Naturalis Biodiversity Center; • Advanced Research Centre for NanoLithography (ARCNL); • Princess Máxima Center. • TO2 institutes <p>In addition, for this call, researchers with a comparable position* to full, associate and assistant professors, lectors or senior researchers can be co-applicant, provided they have a tenured position (and therefore a paid position for an indefinite period) or a tenure track agreement from the following organization:</p> <ul style="list-style-type: none"> • IHE-Delft Institute for Water Education <p>*A comparable position refers to a researcher that has a demonstrable and comparable number of years of experience in carrying out scientific research and supervising other researchers as a full, associate or assistant professor.</p> <p>** Lectors employed at a university of applied sciences and researchers employed at a TO2 institute may also submit provided that they have at least a salaried position for a limited period of time.</p>	

	<p>Persons with a zero-hour employment agreement or with a contract for a limited period of time may not submit a proposal, except for a tenure track appointment and the exception stated above for lectors and researchers employed at a TO2 institute.</p> <p>It could be the case that the applicant’s tenure track agreement ends before the intended completion date of the project for which funding is applied for, or that before that date, the applicant’s tenured contract ends due to the applicant reaching retirement age. In that case, the applicant needs to include a statement from their employer in which the organisation concerned guarantees that the project and all project members for whom funding has been requested will receive adequate supervision for the full duration of the project. Applicants employed by a university of applied sciences or a TO2 institute whose employment ends before the intended completion date of the project for which funding is applied must also include such a statement.</p> <p>Applicants with a part-time contract should guarantee adequate supervision of the project and all project members for whom funding is requested.</p>	
Eligible Costs	<p>The NWO budget modules (including the maximum amount) available for this Call for proposals are listed in the table below. Apply only for funding that is vital to realise the project. <u>Proposals are required to have at least one personnel position of 12 full-time months</u></p> <p>Available budget modules</p> <p><i>Postdoc</i> – at least 6 full months and at most 36 full-time months, according to UNL or NFU rates</p> <p><i>Research leave</i> – max. 5 months, 1 fte, according to UNL or NFU rates</p> <p><i>Personnel universities of applied sciences and TO2 institutes</i> - rates based on Handleiding Overheidstarieven (HOT) (Manual for Dutch Government Fees.)</p> <p><i>Material costs</i> – max. 15 000 € per year per full-time scientific position (postdoc) or 0.2 FTE scientific employee applied for at a university of applied sciences or TO2 organisation</p> <p><i>Knowledge utilisation</i> - max. € 25.000 Participation in the Knowledge Hub may be applied for within this module, travel and accommodation costs only, with a maximum of € 3.600 for 3 meetings.</p> <p><i>Internationalisation</i> - max. € 25.000</p> <p>For the budget module “Postdoc”, a one-off individual bench fee of €5,000 is added on top of the salary costs to encourage the scientific career of the project employee funded by NWO.</p> <p>Note that PhD positions cannot be applied for in this call, due to the maximum project duration of 3 years.</p> <p>The budget items “overhead”, “equipment” and “subcontracting costs” in the Water4All format are not eligible for NWO funding. Please refer to the detailed ‘explanation of NWO budget modules’ to see which costs are eligible for NWO funding.</p> <p>It is recommended to use the NWO budget template in the pre-proposal stage to confirm eligibility of budget items.</p> <p>Submission of a completed budget form to NWO is obligatory at full proposal phase. See ‘Relevant documents’ below for the budget template and more details.</p> <p>Do not hesitate to contact the national contact person in case of questions.</p>	
Funding Commitment	Total Amount for the Call	Maximum Amount Per Proposal

	€ 1.500.000	€ 300.000
Other Funding Criteria	<p>An application for NWO funding (i.e. the Dutch part of a European consortium) has a single main applicant (i.e. Dutch Partner or Coordinator in the European consortium), responsible for scientific and financial management.</p> <p>An applicant may only request NWO funding for one project (part of a European consortium) in this call of the European Water4All Partnership.</p> <p>Applicants may not apply for a post-doc position for themselves.</p> <p>Submission of financial and scientific reports at national level is required in accordance with the rules of NWO.</p>	
Relevant documents	<p>Full details for project funding in this call and relevant forms are available on the NWO website: https://www.nwo.nl/calls/aquaticecosystems-services</p> <p>This includes a mandatory NWO budget form the Applicants are required to submit by the deadline for full proposals. The completed budget form can be submitted to NWO via water4all@nwo.nl.</p>	
Additional Info	<p>Impact of the research is at the heart of this call of the European Water4All Partnership. Please refer to the detailed description of requirements and evaluation criteria, including impact, in the full call announcement of the Water4All Partnership.</p> <p>Stakeholder engagement is essential to maximize the chances of reaching impact and NWO considers engagement of stakeholders an important asset, starting with the design of your project, as well as the definition of active roles for each of them during the course of the project. Valorisation of stakeholder engagement in the project (as self financed industrial and/or societal partner) in the form of in kind or in cash contributions from stakeholders is therefore strongly recommended by NWO.</p> <p>Submission of financial and scientific reports at national level is required in accordance with the rules of NWO.</p> <p>The budget for Kingdom of The Netherlands in this call is brought together by the Dutch Ministry of Infrastructure and Water Management (IenW) and the Dutch Ministry of Agriculture, Nature and Food Quality (LNV) and the Dutch Research Council (NWO).</p>	
Useful Links	<p>For full details of the general NWO funding process, please refer to https://www.nwo.nl/en/apply-funding-how-does-it-work</p> <p>The NWO Grant Rules 2017 and the Agreement on the Payment of Costs for Scientific Research are applicable to the part of the project's budget covered by the grant from NWO.</p> <p>Under the Dutch General Administrative Law Act, any interested party has the right to lodge an objection to the decision taken by NWO within six weeks of the date of the decision letter. Further information about the objections procedure can be found on the NWO website.</p>

For applicants who would wish to express their interest in participating in the Knowledge Hub, please see the section Eligible costs – Knowledge Hub below for more information.</p>	
<p>Eligible Institutions</p>	<p>Eligible entities for the AEI funding are: Non-profit research organizations (such as universities, public research institutions, technological centres and other private non-profit institutions performing RDI activities in Spain), which must comply with the requirements established by this transnational call and with the rules on eligibility defined in the corresponding Spanish national funding instrument “Proyectos de Colaboración Internacional - PCI” (see PCI 2023-I as an example) and the PCI Requirements document. They must have been previously beneficiaries of any of the AEI calls, as stated in the PCI Requirements document. They must ensure contractual relationship with the Principal Investigator (PI) during all the implementation of the project.</p>	
<p>Eligible Applicants</p>	<p>Principal Investigators (PIs) requesting funding to the AEI must:</p> <ul style="list-style-type: none"> • Be eligible to the corresponding PCI call (see PCI 2023-1 as an example) and the PCI Requirements document • Demonstrate experience as investigators in projects funded by the different Plan Estatal I+D+i: 2013-2016, 2017-2020, 2021-2023, ERC Grants, European Framework Programmes or other relevant national or international programmes. <p>Incompatibilities: The following must be considered when participating in different ERA-Nets, European Co-funded Partnerships or other international initiatives:</p> <ul style="list-style-type: none"> • PIs will not be eligible for funding if they apply (i) in more than one proposal in this transnational joint call, (ii) in more than one proposal in the same PCI call and/or (iii) in PCI calls of consecutive years. • If the same PI submits two or more proposals in this transnational call, they will all be declared ineligible except one, without the possibility of changing the PI. • A PI that has been granted a PCI the previous year will be declared ineligible, without the possibility of changing the PI. • Changes of the PI between the 2 steps of the transnational call are not allowed • PI must remain unchanged between the proposal in this transnational call and the corresponding PCI call should the proposal be recommended for funding 	

	<p>Important: In the application form, the applicants should include the PI's full name (with both surnames) and the full name of their institution as stated in the Sistema de Entidades (SISEN).</p>
Eligible Costs	<ul style="list-style-type: none"> • Research and innovation activities are eligible. Mere dissemination, communication or other similar activities will not be eligible. • Only personnel costs for new temporary employment dedicated to the project are eligible. 	One AEI applicant - coordinator	220.000	55.000	275.000
	Two AEI applicants- one coordinator	260.000	65.000	325.000
	<p>Additional amount of € 30.000 maximum (direct costs) and the corresponding indirect costs can be requested per proposal if the work plan includes substantial experimental tasks carried out by the AEI applicants. Substantial experimental tasks are those required for the development of observational or experimental research projects. For instance, ecosystem sampling, design and execution of experiments, obtention of new data sets, use of analytical procedures for the quantification of physical, chemical, geological, or biological variables.</p> <p>Tasks in which existing data are used or re-analyzed exclusively will not be considered substantial experimental tasks. Those tasks will be considered desk and not experimental research projects.</p>			
Other Funding Criteria	<p>Centres formed by different Spanish legal entities will be considered as a unique entity, and thus the maximum funding should not exceed the limits per proposal established above (for example, mixed centres).</p> <p>Two centres or institutions belonging to the Consejo Superior de Investigaciones Científicas (CSIC) will be treated as two separate partners one from another when one of them is acting as Coordinator of the proposal and their tasks and identity in the project are sufficiently separated and justified.</p> <p>Although private enterprises are not funded by the AEI, the Spanish industrial sector is welcome to participate in the transnational consortia principally obtaining funds from the CDTI participating in this transnational call (see CDTI's requirements), from other innovation and technological development funding agencies, or using own funds.</p> <p>The final funding will take into account the transnational evaluation of the collaborative proposal, the scientific quality of the Spanish group, the added value of the international collaboration, the participation of the industrial sector, and the financial resources available.</p> <p>All themes in this transnational call are eligible for funding.</p>			
Relevant Information and Documents	<p>Funding Programme: The framework for this funding action is the Plan Estatal de Investigación Científica, Técnica e Innovación 2021-2023. On a national level, the Call will be managed by the Subdivisión de Programas Científico-Técnicos Transversales, Fortalecimiento y Excelencia (STRAN) of the AEI.</p> <p>Funding Instrument: The instrument funding the Spanish groups requesting funding to the AEI is the corresponding Spanish call "Proyectos de Colaboración Internacional" (PCI) (to be published in due time).</p> <p>Data Protection: By submitting a grant application to the AEI, the applicants consent to communication of the data contained in the application to other public administrations, with the aim of further processing of the data for historical, statistical or scientific purposes, within the framework of the Organic Law 3/2018, of December 5, on Personal Data Protection and Guarantee of Digital Rights.</p>			
Additional Info	<p>Acknowledgement: Any publication or dissemination activity resulting from the granted projects must acknowledge the AEI funding: "Project (reference nº XX) funded by Agencia Estatal de Investigación (AEI) through the PCI (year) call".</p>

<p>Eligible Institutions</p>	<p>Applicants must comply with the SNSF Funding Regulations.</p>	
<p>Eligible Applicants</p>	<p>Applicants must comply with the SNSF Funding Regulations.</p>	
<p>Eligible Costs</p>	<p>Eligible costs are outlined in the SNSF Funding Regulations (Art. 28) and the SNSF General Implementation Regulations (Section 2). Project overhead costs cannot be applied for. They are calculated on the basis of the research funding acquired by eligible institutions under eligible funding schemes. Overhead contributions are paid in retrospect at a flat rate to the institutions of the SNSF awardees.</p>	
<p>Funding Commitment</p>	<p>Total Amount for the Call (national contribution)</p>	<p>Maximum Amount Per Proposal</p>
	<p>1'000'000 CHF (approx. 1'000'000 EUR)</p>	<p>The SNSF provides a minimum grant of 100'000 Swiss francs per project. The SNSF provides a maximum of 250,000 Swiss francs annually per applicant of a project and a maximum of 1 million Swiss francs annually for the project as a whole (SNSF-funded part).</p> <p>Applicants should bear in mind that the SNSF anticipates funding between 2 and 4 projects under this call.</p>
<p>Other Funding Criteria</p>	<p>The SNSF exclusively funds research conducted for purposes that are not directly commercial. Pursuant to the Research and Innovation Promotion Act RIPA and the legal framework of the SNSF, no research grants are</p>	

	<p>awarded if the relevant research is conducted for directly commercial purposes or if the persons involved in the research work do not enjoy scientific independence.</p> <p>Participation of Swiss-based partners requesting financial support from the SNSF is restricted to one project (Art.7.3, SNSF Regulations on project funding). They may, however, participate in other consortia projects as self-financed partners.</p> <p>The maximum number of grants in the project funding scheme for the same funding period from the SNSF is limited to three grants, provided at least one grant is for an EU consortium project or has been granted on the basis of a lead agency, Weave or International Co-investigator scheme evaluation. Swiss-based investigators who already hold three SNSF grants in project funding cannot request financial support from the SNSF to participate in this call (Article 13 of the Amended Project Funding Regulations).</p> <p>Proposals with overlapping funding periods with ongoing SNSF projects are only approved if the research projects pursue different goals (Article 17 of the SNSF Funding Regulations).</p>
Relevant documents	-
Additional Info	<p>Data management plan</p> <p>Applicants will have to complete the DMP on <i>mySNF</i> once the project is approved, regardless of whether a DMP is requested by the consortium. The DMP has to cover the research data, which are collected, observed, generated or reused in the Swiss part of the project and has to comply with the SNSF Open Research Data Policy.</p> <p>Consortium agreement</p> <p>Before the release of the funds, the SNSF requests the submission of a copy of the consortium agreement signed by all the partners.</p> <p>Grant management</p> <p>Grants will be managed according to standard SNSF rules described in SNSF Funding Regulations. Yearly financial reports for the use of SNSF funds must be submitted via <i>mySNF</i>. As a final scientific report, the SNSF requests the submission of the final scientific report submitted to the Water4All Call Secretariat. No other scientific report is requested.</p>
