

WRC BMS PORTAL USER GUIDE

WRC gives an opportunity to researchers on an annual basis to research funded topics around water and sanitation environments. Two types of calls are available: Open and directed. Open calls are proposals that are open to any topics within the water and sanitation environment, whereas as directed calls are linked to Terms of Reference that indicate a specific topic or research along with their outcomes.

All WRC proposals and projects are managed through the WRC Business Management System (BMS). Prospective WRC Proposers and WRC stakeholders such as Reviewers, Project Leaders and Reference Group Members are required to use the BMS Portal.

What is the BMS Portal?

BMS Portal is the WRC's web-based system that enables external stakeholders of the WRC to login and access information relevant to the role they are fulfilling with the WRC. These roles include, but are not limited to:

- Proposers
- Project Leaders
- Reviewers
- Reference Group Members
- Contract Signatories
- Researchers
- Finance Officers
- Students

Purpose

The purpose of this user guide is to provide users with instructions on how to navigate the BMS portal and access the specific information that is relevant to their engagement with the WRC.

How to log a Service Request

Service Requests can be created on the BMS Portal by following the steps in the [Service Requests](#) section below.

1. **Subject** – a brief description of the problem
2. **Email body** – Use plain text to type a description to further explain the issue
3. **Attachment** - You can also attach screenshots to the email

Priority of Service Requests

Service Requests will be prioritized according to the nature of the request:

Priority	Response Time
Priority 1 – Critical	2 hours
Priority 2 – High	4 hours
Priority 3 – Medium	1 working day
Priority 4 – Low	2 working days

The severity, priority and resolution of the calls will be decided by the business systems team and communicated to the business. Priority calls will be classified as such:

1. **Critical:** Unavailability or significant impairment of business-critical systems. Customer's business has halted.
2. **High:** System Impaired. Customer's business has moderate loss, but business can reasonably continue in this situation.
3. **Medium:** Minor Impairment. No significant impact to customer's business.
4. **Low:** General guidance request. No impact to customer's business.

Our support team will remain in-contact with the end-user logging a support request. Should any indicated SLA be unachievable - we will always update the user prior to the SLA being breached.
