

Due to an unfortunate error the quality of Von Bach Dam treated water as recorded in Table 4 of the above article was recorded incorrectly. The corrected values are as follows:

VON BACH DAM WATER, TREATED

Conductivity	(mS/m)	22		$\mu\text{g/l}$
		<u>mg/l</u>		
Alkalinity		60	Aluminium (Al)	600
COD		22	Arsenic (As)	—
MBAS		0,3	Boron (B)	32
Ammonia-N		0,4	Barium (Ba)	< 250
Organic-N		1,0	Beryllium (Be)	< 50
Nitrate-N		0,9	Cadmium (Cd)	< 25
Nitrite-N		< 0,1	Cobalt (Co)	< 25
Ortho-P		< 0,2	Chromium (Cr)	< 25
Organic-P		0,4	Copper (Cu)	< 25
Organic-C		12	Iron (Fe)	50
Fluoride (F^-)		0,2	Manganese (Mn)	< 25
Chloride (Cl^-)		2	Nickel (Ni)	< 25
Sulphate ($\text{SO}_4 =$)		28	Lead (Pb)	< 25
Sodium (Na)		2	Strontium (Sr)	87
Potassium (K)		4	Zinc (Zn)	55
Calcium (Ca)		29		
Magnesium (Mg)		2

GUIDE TO AUTHORS

1. AIMS AND SCOPE

This journal aims at publishing original work in all branches of water science, technology and engineering, viz. water resources development; industrial and municipal water and effluent management; environmental pollution control; hydrology and geohydrology; agricultural water science; limnology; the hydrological cycle; etc.

2. GENERAL

- 2.1 Papers will be accepted in English or Afrikaans.
- 2.2 Papers should be accompanied by an abstract. In preparing abstracts, authors should be brief but not at the expense of intelligibility. Papers written in Afrikaans should carry an extended English summary to facilitate information retrieval by international abstracting agencies.
- 2.3 Specialist terms which may be unfamiliar to the wider readership should be explained freely in the body of the text and, if essential, in the abstract.
- 2.4 Review articles will normally be prepared by invitation, but authors may submit such papers or suggestions for consideration to the Editor. A review is an authoritative and critical account of recent and current research or technology in a specialized field.
- 2.5 The submission of a paper will be taken to indicate that it has not, and will not, without the consent of the Editor, be submitted for publication elsewhere.
- 2.6 Fifty free reprints of each paper will be provided. Any additional copies of reprints must be ordered with return of proofs and will be charged for. A reprint order form will accompany proofs.
- 2.7 Manuscripts should be submitted to:
The Editor
WATER SA
P O Box 824
PRETORIA 0001

3. SCRIPT REQUIREMENTS

- 3.1 An original typed script in double spacing and two copies should be submitted. The title should be concise and followed by the authors' names and complete addresses. One set of original line drawings on good quality drawing paper or glossy photoprints should be submitted. Photographs should be on glossy and not matt paper, enlarged sufficiently to permit clear reproduction in half-tone. Three sets of copies should accompany each submission. All illustrations (line-drawings and photographs) must be fully identified on the back and should be provided with descriptive legends typed on a separate sheet. Illustrations should be packed carefully, with cardboard backing, to avoid damage in the post. The appropriate positions of illustrations should be indicated in the text.
- 3.2 Tables are numbered in arabic numbers (Table 1) and should bear a short yet adequate descriptive caption. Their appropriate positions in the text should be indicated.
- 3.3 The S I system (International System of units) should be used.
- 3.4 References to published literature should be quoted in the text as follows: Smith (1978) — the date of publication, in parentheses, following the author's name. All references should also be listed together at the end of each paper and not given as footnotes. They should be arranged in alphabetical order (first author's surname) with the name of the periodical abbreviated in the style of the *World List of Scientific Periodicals* (4th edn, Butterworths, London, 1963—1965, with supplements) and appear as follows:

MATSON J.V. and CHARACKLIS W.G. (1976) Diffusion into microbial aggregates. *Water Research* 10(10) 877.
THRING M.W. (1975) *Air Pollution* p 132 Butterworths, London.

HOW TO SUBSCRIBE

If you would like to subscribe to "Water SA" kindly write direct to
